

# Watch your home protect yourself safe yourself danger yourself security

## Residential and Commercial Security Services

### Why BLI Contract Security?

Founded in 2008, BLI Contract Security is the go-to company for Residential and Commercial security services. Our Division of Physical Security / Public Safety officers have the expertise to deliver you superior security solutions, vulnerability assessments and training. We understand that a one-size-fits-all approach will not work when it comes to providing our clients effective security services. Therefore, what we have developed is a customized approach specific to each client's wants and needs.

### Differentiators

- Our security team is comprised of former Military and law enforcement personnel.
- We are subject matter experts in security management, training, and anti-terrorism / Force Protection measures.
- Decades of combined experience providing security solutions to large and small businesses.
- BLI Contract Security is the only Security Provider offering FirstNet communications to officers in the field. During any natural or man-made disasters meaning that our communications will never go down in a time of need.
